

Watch for the Announcement

of the greatest Thanksgiving Linen Sale ever given in your town. We bought the largest quantity of linens that was ever bought to be shipped to Ogden. On account of recent market conditions a number of cases are here and many more on the way. All will be here in ample time for you to take advantage of the Great Thanksgiving Sale.

It will pay you women who know values to watch for the announcement of this Great Event.

BURTS'

GERMANY WILL BE REPRESENTED

All Merchants Are Anxious to Participate at Panama-Pacific Exposition.

New York, Oct. 29.—Germany will probably be represented semi-officially at the Panama-Pacific exposition, notwithstanding the German government's decision not to participate officially, in the opinion of James D. Phelan, former mayor of San Francisco, who was appointed by President Wilson to visit foreign governments in the interests of the exposition. Mr. Phelan returned to New York today from Hamburg.

FOR CITY AUDITOR

I am a free agent in this campaign. I have not made nor am I going to make any political alliances with any other candidate on the ticket. I will stand before the people on my capability as an efficient public servant.

I have been in the office of the county clerk for four years. The efficiency of that office is recognized by experts in accounting. I have lent my services in perfecting the system of auditing the public accounts of the county. I feel confident of my ability to render efficient service to the people in the office of city auditor, and on that I stand before the voters. And on that alone.

I have no business or other affiliations to divert my attention from this work in the office of auditor. I will be the city's auditor, if elected, and only that.

ARTHUR F. LARSON,
Candidate for Auditor.

by France, Russia, Greece, Italy, Portugal and Spain. He said that British and German merchants were anxious for representation at the exposition, although their governments did not care to participate officially.

READING TESTIMONY IN DAMAGE SUIT

Chicago, Oct. 29.—Reading of transcripts of testimony taken at the hearing of the damage suit of Joseph C. Henning, against Clarence S. Funk, charging alienation of the affections of Mrs. Henning, continued today at the trial of Daniel Donahoe, a lawyer, and Isaac Steifel, a private detective, charged with conspiring to defame Funk's character.

The first testimony read was that of Aileen Heppner, a defendant in the conspiracy charge, who will be tried separately. In the civil suit, Miss Heppner testified that she had seen Funk and Mrs. Henning together at a hotel.

The testimony of Edwin W. Deuter, then a bell boy at the hotel, also was read, stating that he served drinks to Funk and Mrs. Henning in a room at the hotel. Deuter has confessed that this testimony was perjured, and will be granted immunity in return for his evidence for the state in the present case.

Mrs. Henning, who collapsed on the witness stand yesterday, was reported improved today.

GRAIN DEALERS FAVOR NEW LAW

Washington, D. C., Oct. 29.—Representatives of the National Grain Dealers' association today formally notified Secretary Houston of the department of agriculture, that the organization favored the government's proposed standardization of foreign grades.

Objection was made by members of the Baltimore Chamber of Commerce, who declared that the promulgation of the new grades would seriously affect their export trade, the largest in the country.

Many of the speakers at the hearing today, while favoring the proposed grades, urged modifications. In place of the government's proposed number three corn with a moisture test of 17.5 per cent, they urged the substitution of a grade to be called "standard," and making the government's proposed number four a number three, with a moisture test of 19.5 per cent.

TESTIMONY TAKEN IN SUIT AGAINST GORE

Oklahoma City, Oct. 29.—The taking of testimony in the \$50,000 slander suit brought against Senator Thomas P. Gore by Mrs. Minnie M. Bond began today. Senator Gore was not present.

The day was taken up mostly with the examination of character witnesses, including several ministers and other friends of Mrs. Bond, who testified that Mrs. Bond had borne a good reputation. Mrs. Bond took the stand and reiterated the story she told in Washington last winter that Senator Gore had made improper proposals to her in his room at a Washington hotel. She was being cross-examined by Senator Gore's lawyer when court adjourned.

ONE HUNDRED MEN AT WORK ON PAVING IN THE CITY

The J. P. O'Neill Construction company is making progress in excavating for asphalt pavement on Twenty-fifth street, between Quincy and Harrison avenues and on Fowler avenue, between Twenty-fifth and Twenty-sixth streets, and the work will be prosecuted as long as weather conditions will permit, when it will be suspended until spring.

The grading for Fowler avenue will be completed tomorrow. The grade on the south side of the car track on Twenty-fifth, from Quincy to Harrison, has been finished and grading on the other side will begin tomorrow. The Wheelwright Construction company is also busy engaged on this thoroughfare placing gas mains in the ground. The mains are not only being extended along Twenty-fifth street but also north on Quincy avenue to Twenty-fourth.

The grading done, Mr. O'Neill will begin laying the concrete base. He has a steam loader which greatly expedites grading work and it is planned to get a good deal of the work done before frost gets into the ground. The company has the contract for paving with asphalt Twenty-fifth street from Washington to Harrison avenues, and Fowler avenue from Twenty-fifth to Twenty-sixth street.

There are 100 men at work on street paving at this time.

AUSTRIAN SHOOTS WIFE SIX TIMES

Bingham, Oct. 29.—Because his wife would not return to live with him after a separation of several months, Mike Cranovich, an Austrian about 24 years old, tonight shot her in the back six times with an automatic revolver, inflicting wounds that probably will prove fatal.

In the confusion following the shooting, Cranovich slipped away, and he is now being hunted by a posse of citizens, led by three deputy sheriffs and a large detachment of the Bingham police force. All of the surrounding towns have been notified to be on the lookout for the fugitive, and those who are hunting him said tonight that they expected to have him within a few hours.

The shooting occurred at 9:30 p. m. in a boarding house conducted at Highland boy by Mrs. George E. For, who is sister of the wounded man, and with whom Mrs. Cranovich has made her home since her husband left her. The woman was attended by Dr. F. E. Straup, who, upon a hasty examination, said that he believed she would not die tonight, although the wounds in her chest probably would prove fatal.

Two of the bullets passed through her chest, inflicting ugly wounds. Of the other four bullets fired, three pierced her right arm, leaving it badly lacerated, and the other went through her right hand. She is about 22 years old.

Mr. and Mrs. Cranovich are Austrians. They were married less than a year ago, and after living together a short time, the husband appeared to be jealous and left her and had not been seen in Bingham until a few days ago.

The American leaguers won the game in the third when three hits and two errors netted them five runs. Lobert's four-bagger in the first round gave the Giants their only run.

GIANTS SCORE BUT ONE RUN

Muskogee, Okla., Oct. 29.—Effective pitching on the part of Scott resulted in the White Sox defeating the Giants, 7 to 1, here today. Fromme started for the New Yorkers, and later gave way to Hearne, who finished the game.

The American leaguers won the game in the third when three hits and two errors netted them five runs. Lobert's four-bagger in the first round gave the Giants their only run.

for Mrs. Mackay. John J. Graham, junior member of the firm, went to Mineola today to file papers in this action with the Nassau county clerk. When the office was closed for the day, however, the papers had not been filed.

Over the telephone Mrs. Graham told a reporter that Mr. Graham had been detained in connection with the Mackay case, and would not return until 10:30 o'clock. At that hour Mr. Graham's residence in Hickville could not be reached on the telephone.

Arthur Train, counsel for Mrs. Mackay, was located by telephone at the home of Dr. P. R. Ternure at Katonah, N. Y., and asked if he would make a statement on behalf of his client.

"No," he said, "I must decline to be interviewed. I will not discuss the matter in any way."

Mr. Mackay, who has been in Europe since July, returned to New York under the name of the passenger list printed during the voyage over, officials of the Hamburg-American line denied that Mr. Mackay was a passenger.

COLONEL JACKLING HAS BIG PAY ROLL

New York, Oct. 29.—The Wall Street Journal in discussing men, cities and their payrolls in an article under the caption of "Salt Lake," pays its respect to Col. D. C. Jackling as follows:

"Payroll is one of the things for which towns and cities fight and resort to strategy. It is the one thing that the business men of a community speak about with pride. There is a payroll everywhere, little or large, and only few stop to think who are the men who actually sit on the big lid of the treasury chest. Usually this is the managing director or the general manager, the man who has the greatest direct responsibility for results."

"One of the greatest payroll handlers in the United States is Colonel D. C. Jackling of Salt Lake, who holds a direct responsibility in a half dozen enormous concerns. Of these six many hundreds of miles apart, he is either the managing director or general manager. Under the direct management there has been brought together the greatest combination of mines the world has ever known. The great Ophir mines of Solomon's day would scarcely pay the \$250,000 to \$300,000 yearly liability insurance of the aggregation."

"Croesus in his greatest days never handled one-fiftieth part of the payroll of \$17,000,000 each year which Colonel Jackling handles. The children of Israel could have built and double tracked a railroad to have carried them to the Promised Land with the \$8,000,000 that is spent in railroad rates for these companies each year. This enormous amount is for the necessary travel of officials, employees and other expense. For salaries there is paid in excess of \$1,000,000 a year."

"At present the properties under Colonel Jackling's supervision handle approximately 15,000,000 tons of ore a year. Within the next two years it is confidently believed that the properties that Colonel Jackling now manages will handle 30,000,000 tons of ore a year."

TWO NEW TOWNS IN PAYETTE'S VICINITY

Salt Lake, Oct. 29.—Payette and the Seven Devils' country is fast coming to the front, according to H. E. Dunn, general manager of the Payette railroad, who is at the Utah in connection with adjustment of freight rates with the Oregon Short Line. The great mining country to the north of Payette in the Seven Devils' country is developing rapidly, said Mr. Dunn yesterday. He told of the establishment of two new towns in that section of Idaho, Bradium and Homedale. The Payette Valley railroad runs from Payette into the fruit and farming sections of Canyon county, Idaho.

"We have canned more peas and fruit at the canneries at Payette during the past summer than at any time in the history of the institution," said Mr. Dunn. "The cannery has entered into a six-year contract with a big jobbing house in Omaha and delivers its entire product to it. The canned goods are distributed mainly through the southwestern section of the United States, where better prices prevail. The mining industry in the Seven Devils' country is fast coming to the front, and I think that it will not be long until the Seven Devils' country is as well known as the Coeur d'Alenes."

"The Payette Lumber company is working, but not up to full time. The farmers have made money this year, but the fruit growers eclipsed all records, and many acres of land which was given over to the raising of grain will be turned into orchard land during the next year. We have not planned any extension of the Payette line."

MISS GENE MALONE OF OGDEN HEROINE OF A HOLDUP

Salt Lake, Oct. 29.—The heroism of Miss Genevieve Malone of 35 South Third East street and the fortunate misfiring of a revolver in the hands of a highwayman shortly after 11 o'clock last night probably saved the life of John Malone, a younger brother. Miss Malone's screams brought aid from every side on Third East street, near South Temple street, where the highwayman attempted to hold up the girl, but in the ensuing excitement the man escaped. A score of police officers scoured that section of the city until an early hour this morning, but without result.

Miss Malone, who is a gifted violinist, had attended a theatre downtown and had arranged for her brother, John, to meet the car upon which she would return home. The car arrived at the intersection of Third East street a moment before the brother arrived.

Girl Screamed

The highwayman stepped from behind a tree and Miss Malone screamed and turned to run away. The man seized her just as the brother came running up. The brother grabbed the highwayman by the throat and the latter, turning his gun upon him, snapped the trigger three times, but each time it missed fire.

Miss Malone, who had wrenched herself free, watched the struggle until she saw the gun being snapped at her brother, and then she turned on the man and, seizing the weapon, wrenched it from his hands. Passers-by and neighbors who heard the commotion began to hurry to the scene just as the highwayman jerked himself loose and ran to South Temple street and eastward and disappeared.

In the subsequent excitement, Miss Malone dropped the revolver which she had taken from the highwayman. Mrs. Kate Malone, the mother of Miss Genevieve and another sister, Miss Loretta, heard the screaming from their apartment and reached the scene just as the man got away.

The police were at once telephoned and Patrolman Woodard hurried to the Malone home and was followed later by several other officers. They were given a description of the highwayman.

The Malone family recently moved to Salt Lake from Ogden, and because of that fact Miss Genevieve was not familiar with the streets and therefore arranged to have her brother meet her when she left the street car.

Beyond the nervous shock the young woman and her brother were uninjured.

GRANITE FACULTY BANS "SPOONING" IN STUDY ROOMS

Salt Lake, Oct. 30.—Gloom abounds at the Granite high school these days as a result of an edict by the faculty that the study room must not be used as a trysting place for love-lorn pupils who find indulgence in tete-a-tetes during the last period of the afternoon session. This edict, coming, too, right at the beginning of the chilly days, when unfrequented spots out of doors are far from attractive, has caused these student lovers much grief and woe, for they must now confine their love chats to the evenings by the family fire-side.

Of late it has been the habit of some love-sick couples to spend the last period of the afternoon session in the study room, billing and cooing, much to the annoyance of students who may be there for the purpose for which the room was intended. Then the faculty took a hand and the edict, "This room is for study, not for love-making," followed.

LOCAL OPTION ELECTION

Pocatello, Ida., Oct. 29.—The commissioners met today to make arrangements for the local option election to be held in Bannock county December 17. The contest, it is thought, will be spirited as both factions are lining up for a fight. The districts are largely dry, while Pocatello is strongly wet, as the past election showed.
